

I am writing to urge the FCC to reject NAB's petition 04-160 regarding XM radio broadcasting traffic and weather channels. I pay for this service monthly and feel that it is my right to desire this type of programming. Instant traffic and weather helps me to plan my route to any of my destinations as well as what the weather will be when I get there. It is not the NAB's place to decide what I should and should not be able to pay for. Thank you for your consideration.
